Mapleview Bike Challenge

In honor of Bike Safety Month, Mapleview has organized a Bike Challenge. Turn in the completed form by Friday, May 7th for a chance to win prizes such as gift cards, bike accessories and much more.

Check each item as you complete it:

- ❏ Go on a bike ride for 20 minutes or more
- ❏ Read the Bike Safety Tips sheet
- ❏ Complete the Bike Safety Crossword Puzzle

_____ _____

(Student Name) (Parent Signature)

BIKING SAFETY TIPS

REMEMBER TO:

- **Be visible!** Wear reflective/bright-colored clothing.
- **Plan a safe route** and stick to it.
- **Be predictable.** Ride on the right side of the road, single file, and in a straight line.
- Do the **ABC Quick Check** before riding your bike:
  A= Air
  Be sure your tires are properly inflated.
  B= Brakes
  Check your brakes before riding.
  C= Chain
  Be sure your chain is running smoothly.
  Quick= Quick Release
  If your brake has quick releases, make sure they are secure.
  Check= Check your bike
  Before you ride, make sure everything is working properly.
- **Obey all traffic signals and signs.**
- **Look both ways** before crossing the street.
- **Always wear a helmet!**
- When riding at night, always have a light.

WHEN TO STAY HOME FROM SCHOOL

Keep your child home when:

- They are sick (please see student illness guide and when to get tested)
- They are diagnosed with COVID-19
- They are being tested for COVID-19
- They are a close contact of someone with COVID-19

Frequently Asked Questions:

Do I keep my child home if someone in my household is being tested for COVID-19?

A: Send your child to school if your child is symptom free.

OR

A: Keep your child home if your child has COVID-like symptoms.

Do I keep my child home from school if someone in my household is a close contact of a confirmed case of COVID-19?

A: Send your child to school if the household member who is the close contact is symptom free.

OR

A: Keep your child home if the household member who is the close contact has COVID-like symptoms. (The household member who is the close contact is considered a probable case of COVID if he/she is showing symptoms while awaiting test results and everyone in your household at that point is considered a close contact and will need to quarantine.)

For additional frequently asked questions please visit,
www.kimberly.k12.wi.us/updates/frequently-asked-questions

STUDENT ILLNESS GUIDE AND WHEN TO GET TESTED

People with the below symptoms or combination of symptoms may have COVID-19. The table below outlines WI-DHS recommendations of who should receive COVID-19 testing in Wisconsin. If you have these symptoms, **stay home, call your school office and get tested.**

Box A (any one symptom present)

☐ Cough (above baseline) ☐ Shortness of breath or difficulty breathing ☐ New loss of taste or smell

OR

Box B (any two symptoms present)

☐ Congestion or runny nose (above baseline) ☐ Chills or fever (100.4) ☐ Nausea or vomiting

☐ Diarrhea ☐ Fatigue ☐ Muscle or body aches ☐ Sore throat (above baseline)

**If you choose not to get tested, you must remain home until at least 10 days have passed since symptom onset AND at least 24 hours have passed since resolution of fever without use of medicine AND other symptoms have improved.*

OR

Box C

☐ I am a close contact of someone with COVID-19

For all other illnesses, follow typical school illness protocol by staying home, calling the school office and once symptoms have improved and your child is fever free for 24 hours they may return.

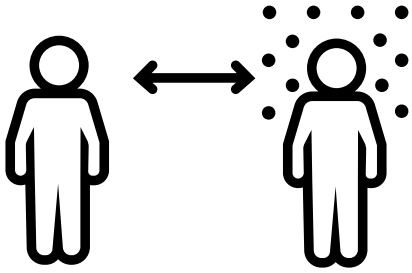
For information on awaiting test results and quarantining please go to, www.kimberly.k12.wi.us/updates/covid-19-protocols.

CLOSE CONTACT GUIDE

What does it mean to be a close contact of someone with COVID-19?

You are a "close contact" if any of the following situations happened while you spent time with the person with COVID-19, even if they didn't' have symptoms:

- ✓ Had direct physical contact with the person (for example, a hug, kiss, or handshake)
- ✓ Were within 6 feet of the person for more than 15 minutes
- ✓ Had contact with the person's respiratory secretions (for example, coughed or sneezed on; contact with dirty tissue; shared a drinking glass, food, towels, or other personal items)
- ✓ Live with the person or stayed overnight for at least one night in a household with the person



EXAMPLE

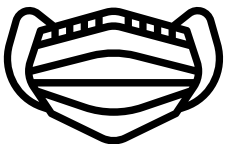
Your child was playing outside with a neighborhood friend when he drank from the friend's water bottle without thinking. The following day, the friend developed symptoms and subsequently tested positive for COVID-19. **Your child is a close contact.**

EXAMPLE

I went out to eat with a friend yesterday and we were within 6 feet of each other for 30 minutes. The following day my friend tested positive for COVID-19. I am now a close contact. What about my child? **Your child is NOT a close contact** as your child did not spend time with your friend.

If you had contact with someone who has been diagnosed with COVID-19 you may be at risk of infection. Follow these recommendations for 10 days since your last close contact with someone with COVID-19.

As a close contact, what does it mean to quarantine?



- Stay home
- Avoid travel
- Go out only if absolutely necessary
- Postpone all non-essential medical appointments until your quarantine is over
- Do not use public transportation, ride-sharing, or taxis
- Wear a face cover when you are around others
- Continue to monitor your symptoms for a full 14 days and if you develop symptoms from day 11 to 14, quarantine and contact your healthcare provider.
