I am not participating in any musical activities this year.

What kind of music do you like to listen to? Who is your favorite artist?

I listen to a lot of music.

What is your favorite band memory?

I don't have any favorite memories. But I like the jokes that Mrs. Bolden makes!

Mapleview 5th Grade Band: Emma Criter

What Instrument do you play?

I play the Alto Saxophone and the Piano.

Who has been your biggest influence in music?

My brother played the saxophone and whenever he would practice, it would always sound so beautiful.

What groups do you participate in at school?

I am not in any clubs right now, but if I were, it would be the art club.

Describe any musical activities that you participate in outside of school?

I am not currently in any musical activities outside of school.

What kind of music do you like to listen to? Who is your favorite artist?

I listen to pop music, and my favorite artists are Leslie Odom Jr. and Anthony Ramos.

What is your favorite band memory?

I am most proud of playing 100 minutes every week so far!

CLEAN MASKS ARE CRUCIAL!

Cloth masks are designed to be washed after every use. They should not be worn multiple days in a row unless washed in between uses. Here's how to care for your cloth mask:

Washing:

Wash masks in a washing machine, using the warmest setting recommended for the fabric. Use your usual laundry detergent.

OR

Wash masks thoroughly by hand, using soap or laundry detergent and warm/hot water.

Drying:

Dry masks in a dryer, using the warmest setting recommended for the fabric.

OR

Allow the mask to air dry completely.

WHEN TO STAY HOME FROM SCHOOL

Keep your child home when:

- ✓ They are sick (please see [student illness guide](#) and when to get tested)
- ✓ They are diagnosed with COVID-19
- ✓ They are being tested for COVID-19
- ✓ They are a [close contact](#) of someone with COVID-19

Frequently Asked Questions:

Do I keep my child home if someone in my household is being tested for COVID-19?

A: Send your child to school if your child is symptom free.

OR

A: Keep your child home if your child has COVID-like symptoms.

Do I keep my child home from school if someone in my household is a close contact of a confirmed case of COVID-19?

A: Send your child to school if the household member who is the close contact is symptom free.

OR

A: Keep your child home if the household member who is the close contact has COVID-like symptoms. (The household member who is the close contact is considered a probable case of COVID if he/she is showing symptoms while awaiting test results and everyone in your household at that point is considered a close contact and will need to quarantine.)

STUDENT ILLNESS GUIDE AND WHEN TO GET TESTED

People with the below symptoms or combination of symptoms may have COVID-19. The table below outlines WI-DHS recommendations of who should receive COVID-19 testing in Wisconsin. If you have these symptoms, **stay home, call your school office and get tested.**

Box A (any one symptom present)

- Cough (above baseline) Shortness of breath or difficulty breathing New loss of taste or smell

OR

Box B (any two symptoms present)

- Congestion or runny nose (above baseline) Chills or fever (100.4) Nausea or vomiting
 Diarrhea Fatigue Muscle or body aches Sore throat (above baseline)

**If you choose not to get tested, you must remain home until at least 10 days have passed since symptom onset AND at least 24 hours have passed since resolution of fever without use of medicine AND other symptoms have improved.*

OR

Box C

- I am a close contact of someone with COVID-19

WI-DHS recommends getting tested if you are a close contact. If you test negative during your quarantine period, you will still need to complete your full 14-day quarantine before it is safe to go back to school or be around others

For all other illnesses, follow typical school illness protocol by staying home, calling the school office and once symptoms have improved and your child is fever free for 24 hours they may return.

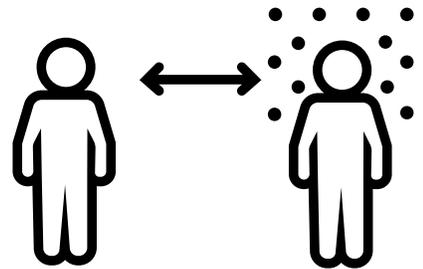

For information on awaiting test results and quarantining please go to, www.kimberly.k12.wi.us/updates/covid-19-protocols.

CLOSE CONTACT GUIDE

What does it mean to be a close contact of someone with COVID-19?

You are a “close contact” if any of the following situations happened while you spent time with the person with COVID-19, even if they didn't have symptoms:

- ✓ Had direct physical contact with the person (for example, a hug, kiss, or handshake)
- ✓ Were within 6 feet of the person for more than 15 minutes
- ✓ Had contact with the person's respiratory secretions (for example, coughed or sneezed on; contact with dirty tissue; shared a drinking glass, food, towels, or other personal items)
- ✓ Live with the person or stayed overnight for at least one night in a household with the person

EXAMPLE

Your child was playing outside with a neighborhood friend when he drank from the friend's water bottle without thinking. The following day, the friend developed symptoms and subsequently tested positive for COVID-19. **Your child is a close contact.**

EXAMPLE

I went out to eat with a friend yesterday and we were within 6 feet of each other for 30 minutes. The following day my friend tested positive for COVID-19. I am now a close contact. What about my child? **Your child is NOT a close contact** as your child did not spend time with your friend.

If you had contact with someone who has been diagnosed with COVID-19 you may be at risk of infection. Follow these recommendations for 14 days since your last close contact with someone with COVID-19. It is important to **self-quarantine and self-monitor** to protect yourself, your family, and your community.

As a close contact, what does it mean to quarantine?

- Stay home
- Avoid travel
- Go out only if absolutely necessary
- Postpone all non-essential medical appointments until your quarantine is over
- Do not use public transportation, ride-sharing, or taxis
- Wear a face cover when you are around others
