School-Based Counseling for Students in 5K – 12th Grade

The Kimberly Area School District and United Way's PATH (Providing Access to Healing) for Students program are working together to provide students in the District with the opportunity to receive outpatient mental health services within their school.

New for this school year:

- Opportunity for school-based counseling services expanded to students in 5-year-old kindergarten through 12th grade. *(Previously only available for grades 7-12.)*
- These services are designed to meet the needs of students and families who would otherwise be unable to access mental health therapy.

Counseling is an excellent way to:

- Learn new skills
- Develop self-confidence
- Become more aware of others' views and experiences
- Practice new behaviors
- Better understand how to deal with the problems life presents

If you are a parent and think your child may benefit, or if you are a student and feel you may benefit from counseling, you are invited to contact your school counselor for further screening.

If you have any questions about mental health resources for students, you can also contact Tim Fosshage, Director of Pupil Services, at (920) 788-7900.

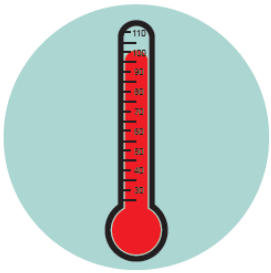
FAMILY RESOURCE INFORMATION/ OPPORTUNITIES TO DONATE

You may or may not be aware that the Kimberly Area School District has two clothes closets that are located in two of our schools. One of the clothes closets is at Mapleview Intermediate (920-788-7910) and the other is at Westside Elementary (920-739-3578). If you would like to donate or are in need of some assistance with resources, you can contact Mapleview or Westside. In addition to the clothes, Woodland is frequently being offered ways to support our families if they should fall upon economic hardship. Please reach out to your child's teacher or school counselor if you are in need of any assistance throughout the year.

When to Keep Your Child Home

Children should be kept home from school when they don't feel well. It is important to get the rest they need to recover, and to prevent the spread of germs to other children and the staff. If you are unsure of when to keep your child home, please contact the school nurse or your family medical provider.

The following symptoms may suggest a communicable disease. Children who have the following symptoms should be kept home from school until a doctor has seen them, they no longer have symptoms indicating a communicable disease or they have received treatment for at least 24 hours for certain diseases.



FEVER

An oral temperature of 100.4 or higher indicates a fever. If your child has a temp of 100.4 or higher at school he/she will be sent home. Your child must be fever free for 24 hours without the use of a fever reducer (Tylenol or Ibuprofen product) before he/she returns to school.

SORE THROAT

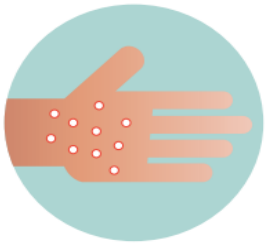
If a fever is accompanied by a sore throat, stomach ache or head ache it may be strep throat. Strep throat is diagnosed by a throat culture obtained at a medical clinic. If your child is diagnosed with strep throat, your child must be on appropriate antibiotics for 24 hours and fever free for 24 hours without the use of a fever reducer (Tylenol or Ibuprofen product) before he/she returns to school.

VOMITING/DIARRHEA

If your child has an episode of vomiting and diarrhea at school, he/she will be sent home. Anyone with these symptoms should stay home until symptoms are absent for 24 hours.

COUGH

A cough may be a sign of many different illnesses. If a cough is accompanied by a fever, sore throat, body aches or any other symptoms you should keep your child home. Any cough that lasts for more than several days should be discussed with a doctor.



SKIN LESIONS/SORES

Rashes and infected sores needed to be diagnosed by a medical provider. Many skin rashes such as impetigo, scabies, chicken pox, Fifth disease or Hand Foot and Mouth disease are very contagious. Students may return to school once the rash has been diagnosed and treated for 24 hours or cleared by a doctor. Open sores from illnesses such as chicken pox and impetigo may need to be covered at school with bandages for several days.

OTHER

Symptoms that prevent the student from active participation is usual school activities OR student is requiring more care than school that can safely provide.
